

Before Users:

- *Differentiate user types - Managers, Members
 - *Implement [fired.io](#) OR [nitrous.io](#)
 - **Include chat box to communicate between team members.
 - * Features for when users have more than one project (Links to other projects on nav bar)
 - * Select location to store files from text editor/ IDE
 - * Calendar
 - * Project Information Page
 - * Store tasks in database relevant to individual members (Adjustable by Manager)
 - ** BACKUP PLAN - List used in project info page to assign tasks to members.
 - * Use tabs for multiple instances of text editor/IDE
-

Dashboard:

General:

- *Task Tables per project showing progress on individual modules for each project.
 - ** Links to project info page included in module titles.
- *Calendar (can be on dash or navbar depending on space)
- *Can edit/delete personal todo lists

Managers:

- * Edit tasks (create, change, delete), add members to the tasks (add users to project and assign member status to them)

Members:

NavBar:

Login (Use only if user has more than 1 project, else go straight to project specific page):

- *list projects on NavBar as directory
- *For background, can use logo or image (Can use witty line to imply to pick a project)

Project Specific:

- *Dashboard
- *Project Info Page
- *IDE/Text Editor
- *File Upload
- *File Trees

- *Chat
- *Calendar
- *Project shortcuts (use four level drop downs)
 - **First Level : "Projects"
 - **Second Level: Title of each project

Both:

- *General Chat (Separate from IDE chat)

Manager Page:

- * Can Create/Edit/Delete projects
- * Can see project progress using timeline
- * Chatbox, calendar, tasks, todo lists
- * Tables (See Flatty) Allows managers to edit status of work loads for different members corresponding to things that need to get done at that time.
 - ** red = New module to work on.
 - ** orange(warning) = Overdue
 - ** green = Completed Module
 - ** yellow = In Progress
- *Edit calendar (Maybe import from google)

Member Page:

- *Can view project info
- *Submit modules
- *Can use IDE/Chat
- *View tables for assigned tasks
- *View calendar
- *Personal chat for member to speak privately with manager and vice versa
